1) **ABSTRACT**

Shiba Trust is an BSC20 token project developed by a women developer, with community-led value, transparency, trust, give back, and longevity. Our token, \$SHIBATRUST, was released on the Binance blockchain on August 9th 2022.

It was launched with 2 BNB liquidity, with a max transaction of 20,000,000,000,000. Our ecosystem focuses on stakings, NFTs, merchandise, and upcoming games.

Our roadmap plans out 4 phases for our future, which include the process of expanding our promotion strategies, echoing this project in as many canals as possible, networking, and growing with our strong community.

VALUE

Community-led

We aim to create a healthy community, with our team as the bridge to reach the goal. Every idea from the community members is listened to and considered for each development we make. To make sure that we can grow together as a community, we have a zero-tolerance towards any kind of discrimination and violence.

Transparency and Trust

Transparency is one thing that we highly value in carrying out this project. We hope to make a relationship based on trust between the community and the team. We will be providing regular updates to the community about what has been done (recap) and our future plans. With a strong foundation of trust, creativity will flow easily

Grow Together

Shiba Trust wants everyone in the community to grow together. To ensure this value, we have staking as one of our utility. Together with the insane amount of marketing and strong community, Every each of us is going to grow high!

Longevity

We are here for the long run. The dedication and effort from the team and community will result in a long-lasting project.

Tokenomics

Shiba Trust was released on the Binance blockchain on 9th August 2022. Shiba Trust is a community-led project, our contract is fully renounced.

The team believes that strong community, hard work, networks, and kindness would bring corresponding outcomes. These are the things that we have been trying to grow since day one. Launched with 2 BNB liquidity, Shiba Trust will grow even bigger with the things mentioned above. We will sustain these things as we learn more from the community each day.

The max supply is 1,000,000,000,000,000 and tax is only 5% for buy and 5% for sell, 2.5 % of tax goes to Marketing, 1.5% goes to auto liq, 0.5 % goes to Developing, 0.5% goes to the Dev. The \$SHIBATRUST Token Smart Contract successfully passed a top-grade security audit to further the community's confidence, in full transparency. We are community-owned and managed. We have a few admins to keep things running smoothly, but every decision is made as a community

Ecosystem

“When money realizes that it is in good hands, it wants to stay and multiply in those hands.”

- Idowu Koyenikan, Wealth for All: Living a Life of Success at the Edge of Your Ability

Stakings

Shiba Trust is a token that keeps growing, literally. We are rewarding the holders of our coins with the staking mechanism.

NFTs

As inspired by the growth of Shiba, our NFTs collection contains super cool Shiba dogs doing various activities.

Merch

Various merchandise is available on Amazon and other marketplaces. Our project can be supported and introduced wider by using our merchandise.
